

Scientific Program

13 June 2012

08:00

Opening of the Secretariat

09:00

Opening Session

Campus A - Auditorium

09:30

Initial Conference: "Research and Higher Education in Nursing: challenges for the promotion of knowledge"
- Manuel Alves Rodrigues (Coordinator)

Manuel Amezcua (Espanha)

Manuel Alves Rodrigues (Moderator)

10:30

Coffee-Break

11:00

Panel (communications by speakers who submit their abstracts)

Thematic axes:

Teaching, Learning and Continuous Training;

Health Promotion and Health Education;

Innovation and Transfer of Knowledge;

Clinical Nursing;

History and Development of the Profession and Scientific Nursing;

Organization and Management of Health Services.

13:00

Lunch Break

14:30

Panel (communications by speakers who submit their abstracts)

Thematic axes:

Teaching, Learning and Continuous Training;

Health Promotion and Health Education;

Innovation and Transfer of Knowledge;

Clinical Nursing;

History and Development of the Profession and Scientific Nursing;

Organization and Management of Health Services.

16:30

Coffee-Break

16:45

Round Table I "Investigation and Development in Nursing"

Aida Cruz Mendes (Portugal); Flávia Regina Souza Ramos (Brasil); Francisco Javier Barca Durán (Espanha);

Luís Batalha (Moderator)

14 June 2012

08:00

Opening of the secretariat

08:30

Posters presentations

09:30

Initial Conference: "Enfermagem e desenvolvimento no espaço Africano"

Ana Bela (Angola); Damas Macaia (Angola); Maria Acacia Lourenço (Moçambique);

Maria da Conceição Saraiva da Silva Costa Bento (Moderator)

10:30

Coffee-Break

11:00

Panel (communications by speakers who submit their abstracts)

Thematic axes:

Teaching, Learning and Continuous Training;

Health Promotion and Health Education;

Innovation and Transfer of Knowledge;

Clinical Nursing;

History and Development of the Profession and Scientific Nursing;

Organization and Management of Health Services.

13:00

Posters presentation

14:00

Lunch Break

15 June 2012

08:00

Opening of the secretariat

08:30

Posters presentations

09:30

Round Table II: "Investigation and Development in Nursing"

Isília Aparecida Silva (Brasil); Miguel Richart Martínez (Espanha); Odete Andrade Mota (Cabo Verde);

Maria Manuela Frederico Ferreira (Moderator)

10:30

Coffee-Break

11:00

Panel (communications by speakers who submit their abstracts)

Thematic axes:

Teaching, Learning and Continuous Training;

Health Promotion and Health Education;

Innovation and Transfer of Knowledge;

Clinical Nursing;

History and Development of the Profession and Scientific Nursing;

Organization and Management of Health Services.

13:00

Lunch Break

14:30

Panel (communications by speakers who submit their abstracts)

Thematic axes:

Teaching, Learning and Continuous Training;

Health Promotion and Health Education;

Innovation and Transfer of Knowledge;

Clinical Nursing;

History and Development of the Profession and Scientific Nursing;

Organization and Management of Health Services.

16:30

Coffee-Break

16:45

Final Conference "Scientific Research and Funding"

António Fernando Salgueiro Amaral (Portugal); Carmen Scochi (Brasil);

Rogério Manuel Clemente Rodrigues (Moderator)

17:45

Closing Session

Manuel Alves Rodrigues (Portugal); Maria da Conceição Bento (Portugal);

Social Program

Pre-congress - 12 June

15:00

Guided Tour to the University of Coimbra (Social Program 1) - University of Coimbra - Outgoing from the Pólo A at 02:00pm

The University is one of the oldest Universities in Europe. It was founded in Lisbon on 1290 and it was definitely transferred to Coimbra on 1537, being established in the Royal Palace. In this place the romans built the Pretorium, which already says a lot about the strategic importance and therefore the military importance of the local. After that it was the local of the Arab Citadel which would has a geometric configuration similar to the actual configuration. With the Christian Conquer it became to be the Palace of the King Afonso, which had a profound reconstruction made by the King Dom Manuel, who also ordered the building of the Chapel of S. Miguel. The building only became to belonging to the University on 1597 in which date this Institution acquired the building from the Spanish Monarch Filipe II (I of Portugal). It was in this époque that were born new structures next to the Palace: The Library, the Tower, the Via Latina and the Porta Férrea. Interactive visit here.

15:00

Visit to the ESEnFC Laboratories - Pólo A (Saída do Pólo A às 14:45 h); Pólo B (Saída do Pólo A às 14:30 h)

The ESEnFC has 20 modern laboratories, equipped with innovative learning technologies. Take a look at the laboratories here.

In these laboratories it is possible to simulate a wide variety of clinical scenarios and, therefore, improve the technical competences before the contact with the real users.

Here it is possible to develop skills in the areas of Maternal Health and Obstetrics, Rehabilitation, Paediatrics, Geriatrics, training of daily living activities, intermediate and intensive care, and urgency/emergency situations.

Our laboratories are also places of research and development, oriented towards innovation, other ways of care provision and teaching methods.

Here we will present some of these laboratories, of which the vast majority is part of the new Clinical Practice Simulation Centre.

15:00

Visit to the Pediatric Hospital of Coimbra - Outgoing from the Pólo A às 14:15 h

The Pediatric Hospital of Coimbra is located in the Alto da Baleia, parish of Santo António dos Olivais, and is one of the health institution that constitutes the recently created CHUC (Centro Hospitalar Universitário of Coimbra).

Opened on 1977, by the founder of the project, Santos Bessa e Bissaya Barreto, the Pediatric Hospital of Coimbra has worked during 33 years in a building that was initially a convent and after a women and children sanatory.

During these years was target of many improvements; attempts finding for the sucessives governments to bridge deficiencies and insufficiencies, basically at the level of physical conditions.

On 2011 January, after a long historical of setbacks, the Paediatric Hospital changes to the new building constructed from the basis to that effect.

It is a Public Hospital, included in the National Health Service. It provides direct and entire assistance (children and teenagers until 18 years) to the whole population of the Country Centre Region, assuming itself as a reference hospital before the district hospitals in the region and before the Health's Centres of the Municipality of Coimbra, establishes itself a national paediatric reference for the specific pathologies as well.

It has an enormous diversity of clinic specialities, including a General Emergency, an Operating Room with 6 rooms, being considered the best on a national level, 163 beds distributed by several services such as Medicine, Surgery, Orthopaedics, Neurosurgery, Oncology and one modern unity of intensive cares. Apart from the Internment, it offers many services such as Child-Psychiatry, Rehabilitation and Physic Medicine and Imaging.

It is an Institution with differentiated functions in the Health Care Services, in the pre and postgraduate training and in the scientific

research.

13 June 2012

18:30

Welcome Cocktail "Pedro & Inês" (Social Program 2)

The Welcome Cocktail reception "Pedro & Inês" will be held at the Campus A of the Nursing School of Coimbra where the Conference takes place.

21:00

Passeio Pedestre Noturno - Ponto de encontro no Portugal dos Pequenitos

Come to know the beautiful city of Coimbra and their delights in the nocturne walk passing through pedestrian bridge Pedro & Inês in the Green Park.

The registered person in the "Welcome Cocktail "Pedro & Inês" (Social Program 2)", will have transport secured by the organization from the cocktail place to the walk meeting

14 June 2012

15:00

"Caves Aliança" guided visit (Social Program 3) - Saída do Pólo A às 14:15 h

Foi em 1927 que 11 associados liderados por Domingos Silva e Ângelo Neves decidiram fundar em Sangalhos (Anadia), a Aliança, que conta já com mais de 80 anos de vida. Atualmente, mais de 50% da sua produção destina-se à exportação, sobretudo de vinhos, espumantes e aguardentes. Os vinhos da Aliança receberam já vários prémios nacionais e internacionais, tendo sido considerada uma das 20 melhores empresas do sector a nível mundial. Recentemente, foi inaugurado o Aliança Underground Museum, um espaço expositivo, que se desenvolve ao longo das tradicionais caves das Aliança Vinhos de Portugal e que versa áreas como a arqueologia, etnografia, azulejaria e cerâmica.

Visite o site das Caves Aliança

20:30

Dinner (Social Program 4)

O Hotel D. Inês é moderno e confortável, situado na baixa citadina e no coração comercial de Coimbra, ao lado do rio Mondego. Cola da Garça, nome dado àquela que foi coroada rainha depois de morta, pela comparação que se fazia entre a sua beleza e a da garça, particularmente o seu esbelto pescoço, é o nome do restaurante do Hotel Dona Inês, pretendendo desta forma enaltecer a beleza da Rainha Dona Inês.

Pre-congress program - Workshops

Pre-congress - 12 June

08:00

Opening of the Secretariat

09:00

Workshop I - Reading the statistics analysis results: from the symbols to the significances

Campus A - Sala Maior -1st floor

Manuel Gameiro (Portugal)

Maximum Limit of Registrations: 40

Deepen the meaning of the critical appreciation's need of the significances attributed to the statistics results in which the investigation conclusions are based.

The statistics has a vast collection of tools and techniques developed with the aim of obtaining relevant information from the numeric expressions. The problem is that the learning of the use of those tools and techniques in the human and social sciences is frequently accomplish in a shortly time, in an intensive way and presently very supported in informatics programs, as it happens with the SPSS. In sequence of this kind of training, it is clear that we stay with an idea very normalized and external of the analytic processes which the data are submitted and, therefore, with an insufficient capacity of reading the results to appreciate his significances and the effective relevance as empiric answers or proves related with the investigation questions and/or hypotheses.

09:00

Workshop II - Literature Systematic Review

Campus A - Room 1.1 -1st floor

Paulo Joaquim Queirós (Portugal)

Maximum Limit of Registrations: 40

Contributions of SLR to an evidence-based practice;

RSL as research methodology and differentiation of the narrative review;

Essential Steps of a Literature Systematic Review;

RSL with meta-analysis and meta-synthesis;

Simulation of a search in EBSCO platform, organization of information for a Literature Systematic Review and organization of a research report.

09:00

Workshop III - Organization Data Techniques for the qualitative research: The experience of the Collective Person Speech

Campus A - Room 1.2 -1st floor

Isilia Aparecida Silva (Brasil)

Maximum Limit of Registrations: 40

Kinds and ways to obtaining qualitative data

Analysis Methods and Techniques of qualitative data

The speech construction of the Collective Person, origin and proposal

Application of the Collective Person Speech for analyzing the qualitative data proposed by Lefèvre & Lefèvre.

09:00

Workshop IV - Writing and Published Papers

Campus A - Room 1.3 -1st floor

Aida Cruz Mendes (Portugal); João Luís Alves Apóstolo (Portugal);

Maximum Limit of Registrations: 40

The dissemination of research results is one of the most significant steps of the scientific activity. It can be done particularly through the participation in scientific events or writing/publishing of papers in journals of reference. The writing of a scientific paper follows a set of rules, a structure and a language of its own, which can be improved and adapted to the editorial criteria of the targeted journals. In this workshop, we will explore the issues related to the writing of scientific papers, the strategies used to adapt the paper to the means of dissemination (journal) according to the topic under analysis, the knowledge produced and the target groups; the recommendations for the authors, the editorial criteria; and the criteria underlying the quality (structural characteristics and scientific discourse) of the papers which will be submitted.

15:00

Meeting of Nursing Scientific Journals Editors and Referees

Campus A - Auditorium

Manuel Alves Rodrigues (Portugal)

Meeting opened to Editors and Reviewers (free).

15:00

Open Meetings by speciality

Free Registrations - by speciality - (free)

The Meetings will be directed by the Coordinators of the Scientific-Pedagogic Unities of the ESEnfC, by speciality. The participation in these Meetings is free and aims to share professional, pedagogical and research experiences (research projects).

Obstetric and Maternal Health Nursing - Campus A - Room 1.3 -1st floor

Children and Pediatric Nursing - Campus A - Room 1.2 -1st floor

Medical-Cirurgical Nursing - Campus A - Room 1.5 -1st floor

Rehabilitation Nursing - Campus A - Room 1.1 -1st floor

Public Health, Familiar and Community Nursing - Campus A - Sala Maior -1st floor

Mental Health and Psychiatric Nursing - Campus A - Room 1.4 -1st floor

Elderly Nursing - Campus A - Room 1.6 -1st floor

Fundamental Nursing - Campus A - Room 1.7 -1st floor
